Skills

🔗 Python, Django, Flask

🔗 PostgreSQL, MySQL, MongoDB

🔗 Celery, Message Queuing

🔗 REST API, GraphQL, SOAP

🔗 Git, GitHub, Workflows

🔗 AWS, Terraform, Deployments

🔗 Problem solving and debugging

🔗 Adaptability and fast learning

Open Source Projects **Nepali Calendar Extension**

- GNOME Shell extension that displays the Nepali calendar in the top bar, with daily updates on the current date, events, festivals, and tithi.

Shutdown Dialogue Extension

- GNOME Shell extension that provides a custom Alt+F4 keybinding to show a shutdown dialog when no windows are open.

Projects	<u>MeroCoffee</u>	
	• Built a “Buy Me a Coffee” style platform for creators in Nepal to receive support payments. • Integrated local and international payment gateways (Esewa, PayPal, Stripe) for seamless transactions. • Implemented user authentication, creator/supporter profiles, payment processing, withdrawal systems, and analytics dashboards. • Added Redis caching, rate limiting, and django-defender for security and abuse protection. • Implemented multilevel user roles and permissions for fine grained access control.
